

AGENDA

FEDERAL AFFILIATES COORDINATING WORKING GROUP

(Drafted by Chris Mooers, WG Chair/31 OCT 03, mod HES)

- Interfacing with external groups
- Review the concept, membership, and history of this WG.
- Discuss appropriate role of affiliates in regional observing systems
- Legal restrictions on data re-distribution
- Consider potential common interests; such as,
 - Joint stewardship of the evolving regional coastal ocean observing system for SEUSA, including coordination with the federally managed "national backbone"
 - Joint design of the SEUSA regional data and information management system
 - Joint conduct of a Coastal Ocean Data Assimilation Experiment for the SEUSA (SECODAE).
- Determine effective means for further communication and coordination.
